

Contact

ashfaaqktmail@gmail.com
+91 99950 32407
www.ashfaaqkt.com
Kozhikode, Kerala, India

Skills

PROGRAMING LANGUAGE'S
Python, JavaScript, Kotlin, Swift, SQL

FRONTEND
HTML, CSS, React, JS,
Responsive UI/UX Designing

BACKEND & API'S
Node.js, Express.js,
REST Architecture, Flask

DATABASES
MongoDB, MySQL, AWS RDS

CLOUD & DEVOPS
AWS (RDS, basic services), Git, GitHub, Docker, CI/CD fundamentals, Containerization

TOOLS&PLATFORMS
Tableau, Firebase, VSCode, Android Studio, Replit, Cursor, Framer, AntiGravity, CodeX,

SOFT SKILLS
Problem-solving, Creativity, Writing, Adaptability, Communication, LLM Prompting, AI-assisted development workflows, Creative UI prototyping, Performance optimization

Hobbies

- UI/UX design experimentation,
- Solving coding & logic challenges,
- Fitness & swimming,
- Exploring automobiles & driving,
- LLM Prompting, photography.

Language

- Malayalam - fluent (speak only)
- English - fluent (speak, write, read)
- Arabic - fluent (speak, write, read)
- Hindi (Basic understanding)
- Tamil (Basic understanding)

Ashfaaq KT

BSc. Computer Science
Full-Stack Developer (MERN)
AI-Assisted WorkFlow Developer

About Me

Results driven full-stack developer blending expertise in the MERN stack, seamless cloud integration, and UI/UX design with a strong focus on AI-assisted workflows. Backed by formal training in Computer Science and hands-on experience building scalable, intelligent platforms, I specialize in streamlining DevOps and data analysis to engineer fast, high-performance digital experiences.

Featured Projects

Personal Portfolio Website
HTML - CSS - JS

- Designed and deployed a fully responsive personal website (ashfaaqkt.com).
- Implemented modern animations, clean UX, and optimized loading performance.
- Hosted on GoDaddy with integrated custom analytics for traffic monitoring.

Database & AWS RDS Integration
SQL - AWS RDS

- Deployed production-ready relational database schemas on AWS RDS.
- Implemented automated backups, monitoring, and high availability.
- Demonstrates foundational cloud infrastructure and database deployment skills.

Tableau Mental Health Data Analysis
Tableau - Data Visualization

- Created interactive dashboards using charts, graphs, and trend analyses.
- Identified mental health patterns across multiple demographic groups.
- Converted raw datasets into meaningful, actionable insights.

DevOps Workflow Implementation
Git/GitHub - Flask - Docker

- Implemented complete DevOps workflow for Flask applications, including Git version control and GitHub integration.
- Containerized applications using Docker to enable consistent development and deployment environments.
- Demonstrated understanding of CI/CD principles and container orchestration practices.

Banking gRPC System
Python - SQL - gRPC

- Built a secure transaction system using client/server architecture with authentication layers.
- Integrated SQL-backed data persistence and robust error handling.
- Designed for reliable financial operations with strong transaction management.

StudyBuddy Notes Application
MERN - HTML - CSS - JS

- Built a MERN-based AI study platform enabling note management, automated quiz generation, and performance tracking.
- Integrated Google Gemini AI for smart quiz creation and content summarization.
- Designed a responsive UI with modern UX and analytics dashboards.

Bill Scanning Based Reward & Intelligence System
JS - MERN - HTML - CSS - Firebase - Python Flask - AI/ML

- AI-powered receipt scanning system using Gemini 2.5 Flash for zero-shot structured data extraction, with fraud detection, reward calculation, and Firebase-backed user analytics built on Node.js and Python Flask.

Education

B.SC. COMPUTER SCIENCE - BITS PILANI
ONLINE | CGPA 7.95 — 2023 - PRESENT

Final-year coursework includes systems architecture, artificial intelligence, database management, and full-stack engineering. Building portfolio projects aligned with industry-ready development practices.

AL-SHATTI SECONDARY SCHOOL - GPA 98%
DAMMAM, KSA — 2019 - 2021

Science track with strong emphasis on advanced mathematics, logical reasoning, and bilingual (Arabic–English) instruction under the Saudi Ministry of Education.

Certifications

ENTRI ELEVATE - AI- BASED FULL STACK DEVLOPMENT - MERN
ONLINE — 2025 - 2026

- **NSDC:** Earned NSDC certification validating industry-aligned competencies in software development, programming fundamentals, and professional readiness under India's national skilling framework.
- **Entri Elevate:** Completed Full Stack MERN certification covering MongoDB, Express.js, React, and Node.js, building responsive web applications with REST APIs and database integration.
